Introduction

The Maine Municipal Association is pleased to present the Annual Local Government Fiscal Survey - 1998 Data. The survey results are designed for municipal officials and policymakers to use as a tool to analyze municipal fiscal conditions in Maine. The results also serve as the basis for research to support MMA's advocacy and communications services.

This is the 7th year that the Local Government Fiscal Survey has been conducted. On behalf of the Maine Municipal Association, I would like to thank all the municipal officials who participated in the survey. This publication is made possible by their participation.

If you have any comments or suggestions concerning the survey report format, please contact me at the phone numbers listed below or at my e-mail address: gsoper@memun.org

Copies of this report are available by contacting MMA Publications at 623-8428 or 1-800-452-8786. The Publication is available free for registered members on MMA's Web site at www.memun.org.

Methodology

The data in this report was collected through MMA's mailed survey titled Annual Local Government Fiscal Survey. The survey was sent to all 493 Maine municipalities in May 1999. Those municipalities that did not respond to the initial mailing were sent reminder notices in late June. Two hundred and twenty-seven (227) municipalities responded, for an overall response rate of 46%. Since municipal fiscal years vary throughout the State, municipalities were asked to provide data for their fiscal year ending April 1998, June 1998, December 1998, January 1999, February 1999 or March 1999. For the purposes of this report, these are referred to as 1998 fiscal data.

This report is organized into 4 sections: (1) Property Tax Administration; (2) General Fund Revenue; (3) General Fund Expenditures; and (4) Debt and Fund Balance. For each section, municipalities are listed alphabetically within 4 population groups: 0 - 1,999; 2,000 - 4,999; 5,000 - 9,999; and 10,000 +. Notes explaining the data are provided at the beginning of each section. **For all reported data, there is a distinction between a blank and a "0". A blank indicates that data was not reported for a municipality or that the figure for a variable is included in a different variable. A blank is not treated as a valid response and is not included in group summary calculations or statewide estimates. A "0" is the numeric value of zero and is included as a valid response.** For each variable within a population group, a summary, which includes the survey total, average, minimum, maximum, median, estimated groupwide totals and estimated statewide totals and averages, is presented at the beginning of each section.

The estimated statewide total for a variable is calculated using 2 steps. First, each group average for a variable is multiplied by the actual number of municipalities statewide in each respective population group. Second, the resulting figures are summed to provide the estimated statewide total for the variable. This method recognizes the significance of population in explaining variances among municipalities for fiscal variables. It also reduces the chances of statewide totals and averages being over-represented by larger municipalities.

Municipal financial reporting practices vary throughout the State, which makes it difficult to design a survey instrument that can be completed by all municipalities to provide accurate, comparable data. In some cases, data was viewed and edited based on actual financial statements to improve accuracy and comparability. As a result, data presented in this report may vary from actual survey responses.

Population and response statistics for each of the population groups follow.

Population Group Statistics

Population Group	Municipalities Surveyed	Municipalities Actual	Response Rate
0 - 1,999	126	337	37.39%
2,000 - 4,999	58	97	59.79%
5,000 - 9,999	32	43	74.42%
10,000 +	11	16	68.75%
Totals	227	493	46.04%

As the table indicates, response rates ranged from a low of 37% for the 0 - 1,999 population group, to a high of 74% for the 5,000 - 9,999 group. The total response rate was 46%.

Notes

Inconsistencies result from differences in budgeting and accounting procedures among municipalities. In this report, inconsistent data is marked by either a (*) or (#) which is explained by footnotes.

Appleton's figures are based on an 18-month budget. Appleton will be listed as 'Appleton (18-month)' in this report to show that their figures are based on an 18-month budget.

Fiscal Year End Dates that are inconsistent and may or may not reflect 1997 fiscal year data, have been marked with an (*) and a footnote.

The Local Roads Expenditure Report is broken down from Total Roads into Non-Winter and Winter Roads. Municipalities that do not separate Non-Winter and Winter Roads have figures only included in the Total Roads Column.

Municipalities that combine their EMS & Fire Expenditures will have the words (in fire) in the EMS column to show that their EMS Expenditures have been included with their Fire Expenditures.

Summaries of highest and lowest amounts are located at the end of each table.

I encourage comments and/or suggestions concerning this survey and report. I also am grateful for the time and efforts put forth by the municipalities that responded to the survey, listed in the following table.

SECTION 2: GENERAL FUND REVENUE

SECTION 2: General Fund Revenue

- **Total Gen Fund Rev** (pp. 29-36) Excludes enterprise, trust and special revenue funds.

MUNICIPAL REVENUE

Total Municipal (pp. 29-36) **Municipal Rev** (pp. 37-45)

- **Property Tax** (pp. 37-45) Actual amount collected during the fiscal year from levy on both real and personal property.
- **Excise Tax** (pp. 37-45) Includes motor vehicle, watercraft and aircraft excise taxes collected.
- **Fines** (pp. 37-45) Received for late payment or nonpayment of taxes.
- **Invest Income** (pp. 37-45) Includes interest earned on savings, checking and investments.
- **Licenses** (pp. 37-45) Revenue from the granting of licenses and permits (only the portion that is kept by the municipality and not forwarded to the State or another jurisdiction); revenues from user fees and charges for services (only if General Fund).

STATE REVENUE

Total State (pp. 29-36) **State Rev** (pp. 46-54)

- **Revenue Sharing** (pp. 46-54) Actual amount of dollars received from the State's Municipal Revenue Sharing Program.
- **Highway Grant** (pp. 46-54) Actual amount received from the State's Highway Block Grant Program.

- **G A Reimb** (pp. 46-54) Actual amount received from the State's program to partially reimburse municipalities for General Assistance expenditures.
- **Tree Growth** (pp. 46-54) Actual amount received from the State's program to partially reimburse municipalities for tax losses due to land classified as "Tree Growth."
- **GPA** (pp. 46-54) Includes General Purpose Aid to Education and all other forms of state education aid. For municipalities that are part of an SAD or CSD, a blank indicates that the aid goes directly to the school district.
- **Other State Rev** (pp. 46-54) Includes veteran's reimbursement, snowmobile reimbursement, comprehensive planning grants, library stipend, forest fire reimbursement, state park fee sharing, landfill closing and recycling grants, and any other revenues from State Government not included above.

FEDERAL REVENUE

- **Total Federal** (pp. 29-36) Grants and transfers from the Federal Government to the municipality (General Fund only).

OTHER REVENUE

- **All Other Rev** (pp. 29-36) Includes all other General Fund revenue.
- **Use of Surplus** (pp. 29-36) Amount of surplus (fund balance) appropriated and used for General Fund programs and services. For larger municipalities the use of surplus is not considered revenue. However, many small municipalities appropriate surplus at the town meeting for specific programs or services.
